

Soul & Fiber

TEXTILE ARTS & FASHION DESIGN

Handmade in Vietnam

Soul & Fiber was created by Thao Pham, a fashion designer and textile artist based in Hanoi, Vietnam.

Every Soul & Fiber piece is one-of-a-kind, with its own soul story waiting to be told.

It's a unique combination of traditional and contemporary rug making techniques.

Thao is often inspired by the texture of nature, and how that texture stirs up such powerful emotion.

Using a variety locally sourced materials (cotton rope, wooly yarn, jute, etc.), each piece is carefully crafted with great attention to detail, innovative techniques, and love.

COMFORT FIELD *Collection*

“Comfort Field” was created as a result of a “flow” session.

My body and my soul deserves times like these to realign and recharge.

It is possible to find comfort within my self, I realize.

“Venture” is personal.

It is the story of my first time solo traveling around the world.

First time realizing the world out there is so much bigger than myself.

First time admitting the world inside of me is so much bigger than my own existence.

I left. I wandered. I healed. I came “home”.

GOOD DAY Collection

“Good Day” in my memory is a clear day out in Dolores Park, with an ice cream in my hand, canned tequila and a cotton cloud sky.

This collection consists of bright and cheerful colors, reminding us happy days are right around the corner, only when we are open our hearts to look for it.

NORTHWEST SIGHT

Collection

“Northwest Sight” is a depiction of my memories traveling the Northwestern part of Vietnam. Waking up when the night still lingers to look for the sun. Finding the ethnics in their colorful costumes starting their days. The fog, the forest up on the hills, the stairways of rice paddies. How much more beautiful can life be, I wonder.
